

THE LIMA TIMES-DEMOCRAT.

CABLE AND TELEGRAPH REPORT OF THE SCRIPPS-MCRAE PRESS ASSOCIATION CO.

VOL. XVII. NO. 234

LIMA, OHIO, MONDAY, JULY 15 1901.

PRICE THREE CENTS.

OUT

Are Seventy-four Thousand Men.

Stocks Tumble

On Account of the Big Steel Strike.

In London the Slump Also Affected Other American Stocks.

Few Plants of the American Sheet Steel Company are Running Today, and They Only Partly.

Special to wire to Times-Democrat. London, July 15.—According to the report at national headquarters of the Amalgamated Association today, 14,000 men are idle as a result of Shaffer's strike order. It is admitted by the workers' officials that few plants of the American Sheet Steel Co. are running today. Among those said to be partially in operation are the Greenfield, Goethals and Apollo plants. The Vandegrift and Scottsdale plants are reported running full. Of the 74,000 men our Secretary John Williams figures that twenty-seven thousand are in the iron mills and twenty thousand in the hoop mills.

All during the negotiations last week both sides declined to talk. Today Secretary Williams told of an occurrence of last Friday, which caused an uproar in the conference. On that day, Williams says, one trust official commented it was the object of the manufacturers to keep balance of the power in their own hands. Said if it did not, the Amalgamated Association would be supreme as regards to labor matters in the United States, and this was the one thing that the trust wished to avoid. Williams said the speaker, whose name he refused to divulge, said: "We are willing to concede a part of what you ask, but to recognize your association in all of our mills would throw the balance of power into your own hands. Rather than that we will fight to a drawn."

A communication has been received at the Amalgamated headquarters from a large Allegheny concern, which is independent and unionized, asking that all puddlers, beaters, roughers and other skilled bar or guide mill workers thrown out of employment be sent to this works and that employment would be found for several hundred of them. Similar communications are coming from all over the country and it is thought that over two-thirds of the strikers will be given employment in anti-trust mills.

According to the claims of the men, the only mills belonging to the iron, sheet and hoop departments of the trust are the tin mill at Monessen, Pa.; Sheet mills at Vandegrift, Leechburg, Apollo and Scottsdale. The hoop mills are all closed, except two non-union ones. The Amalgamated officials say they will close these inside of a week.

A secret conference of the officials of the U. S. Steel Corporation will be held in New York tomorrow to decide whether to seek peace or force the fight to a finish. The importance of the conference cannot be over estimated, for if a war to a finish is ordered, it will cost millions, probably result bloodshed and finally wreck all Aligned unions or force the billion dollar trust to cry for quarter.

Rapid Decline in Steel Stocks. London, July 15.—United States steel stocks fell six points this morning on receipt of strike news. This dragged down the whole list of American stocks three points.

Glass Workers Go Out. Newark, O., July 15.—The laborers in Everett's Glass Factory belonging to the American Federation of Labor, struck today for a sixteen per cent increase. Their average wages paid now is \$1.21.

Railroad Shops Closed. Memphis, July 15.—Since the machinist's strike on May 30, the Southern Railway has been employing non-union men in their shops here, quartering them in boarding cars in the switching yard. Saturday night a non-union man was badly beaten and today

not a single man showed up for work and the shops were closed.

They All Wanted to Sell.

New York, July 15.—On the stock market there was heavy selling of U. S. Steel stocks, when opened three cents below Saturday's closing quotations.

Out at Youngstown. Youngstown, O., July 15.—Three thousand men here and 7,000 more in the whole Mahoning valley are out.

500 Out at Warren, Ohio. Warren, O., July 15.—The hoop mills have been closed, and the fires drawn. Five hundred men are out.

Tributary Mills May Close.

Sharon, July 15.—The tin mills here are not owned by the trust but they sell their product to it. The men have not yet been ordered out but expect to be.

Two Thousand Quit Here. New Philadelphia, O., July 15.—Two thousand men in the Tuscarawas valley are idle on account of the strike affecting the sheet mills of New Philadelphia, Denison, Canal Dover, and the mills at Dover.

McKinley Tin Plant Closed. Niles, O., July 15.—One thousand struck at the Falcon Mills and the McKinley tin plant.

WAR

Between Russia and Japan

Now Imminent

Enlistment of 300,000 Men

Has Been Called for by the Russian Government and Railroads

Have Been Ordered to Hold Themselves in Readiness to Transport Troops at Four Hours Notice.

Special to wire to Times-Democrat.

London, July 15.—Fragmentary dispatches from St. Petersburg tell of unusual activity in Russian army and navy circles. The Czar has ordered the enlistment of three hundred thousand men in the army and navy.

At naval stations work is being pushed night and day. The Russian government has ordered the railways to hold themselves in readiness to transport troops on four hours notice because of war with Japan is imminent. The relations between Russia and Japan have been strained to breaking point for some time. While there has been no news recently that the issue has become acute, Russia's military movements indicate this is so.

NO RELIEF

For Drought Stricken Farmers

And it is Now a Question of a Substitute

For the Crops That Have Been Parched by the Blistering Sun and the Hot Winds of the West.

Special to wire to Times-Democrat.

Chicago, July 15.—There is no relief for the drought stricken great corn belt. Today promises to be one of the hottest of the year. How farmers will save themselves from ruin is the question now. Kansas may recuperate through alfalfa and kafir corn. Mississippi farmers are preparing to plant peat as the best substitute for corn. Missouri farmers center their expedition on the late corn. Illinois farmers still hope to get 55 per cent of their crop.

Boat Upset.

Eagle Pass, Tex., July 15.—The consulting engineer of the International boundary commission, P. D. Cunningham, was drowned by the capsizing of his boat in a narrow, rocky channel of the Rio Grande about 20 miles below Eagle Pass. He and his party left here in two boats. The second boat was upset while attempting the rescue of Mr. Cunningham. He was a native of Nashville, Tenn.

Parachute Failed to Open. Springfield, O., July 15.—Paul Hague, known as Professor Zeno, an aeronaut, was fatally injured at the

WAR

With the Big Steel Trust is on.

For Principle,

And for Their Self Preservation,

President Shaffer Says the Men of the Association are Contending.

He Declares That the Strike was Forced Upon the Workmen—Pittsburg the Center of the Great Strike.

Pittsburg, July 15.—Indications are that President Shaffer's strike order to the Amalgamated association members in the employ of the American Steel Hoop company, the American Sheet Steel company and the American Tin Plate company will be generally obeyed. The great struggle between the Amalgamated association and steel companies is on in earnest.

"The strike was not of our seeking," said President Shaffer. "It was forced upon us. We were not contending for wages, but for principle—for self-preservation. The tin and sheet people will not be able to turn a wheel. We have our forces thoroughly organized and there will be some surprise in store. I have not heard from a single hedge as answer to my strike order, but an answer is not necessary. The order will be obeyed by all our men but there will be no trouble. Labor organizations have changed. The Amalgamated association is not the association it was 10 years ago, not even five years ago. The men are more readily controlled; in fact, we have men under control."

Developments indicate that Pittsburg is going to be a pretty hot strike center. The most interest attaches to the Painter mill on the South Side and to that of Lindsay and McCutcheon in Allegheny. Both mills are controlled by the American Sheet Hoop company and have hitherto been aggressively non-union and much depended upon the action taken by the men in these plants. The employees of both mills held open meetings and both decided to strike. The Painter mill employees about 400 men, and the Lindsay and McCutcheon mill 300.

The night at the Painter mill is to be made the crucial test of the strike. Both sides will make stubborn resistance. The mill is not only important, but the Steel Hoop company has for years succeeded in thwarting the efforts made to unionize it.

President Shaffer was asked if he had set a time when, no settlement having been effected, he would extend the strike to all the subsidiary steel companies of the United States Steel corporation. He said he must decline to make his plans known at present. It may be said, however, on the strength of reliable information, that the strike within its present limits, is intended as a show of strength.

Should this fail to bring about another conference the strike may be extended to three more companies, and if the trust still refuses to yield, an effort may be made to tie up all the independent companies which dispose of their products to the concerns under the ban of the strike. It is said a secret alliance exists between the Amalgamated and the American Federation of Labor and that as a last resort the latter may participate in the struggle.

President Shaffer also announced

that he would prepare a circular letter

which will be mailed Monday evening to reach every member of the association employed by any mill operating a constituent plant of the United States Steel corporation. The letter will state fully the present conditions facing the workmen, the reasons for the failure of the conference of last week, and ordering every man to go on strike to uphold the principle involved.

With the 74,000 men affected by the original order calling out the sheet steel, sheet hoop and tin workers this general order will increase the numbers to more than 150,000 and will involve the Federal Steel Co., the National Steel Co., and the National Tube Co.

Sheet Steel.

Eagle Pass, Tex., July 15.—The consulting engineer of the International boundary commission, P. D. Cunningham, was drowned by the capsizing of his boat in a narrow, rocky channel of the Rio Grande about 20 miles below Eagle Pass. He and his party left here in two boats. The second boat was upset while attempting the rescue of Mr. Cunningham. He was a native of Nashville, Tenn.

Parachute Failed to Open. Springfield, O., July 15.—Paul Hague, known as Professor Zeno, an aeronaut, was fatally injured at the

land park, falling 200 feet. The parachute failed to open and he fell into a corn field. Hague was married last Thursday to Mabel Brandon, also an aeronaut, who was seriously injured by falling from a balloon at the fair grounds in this city June 22.

Found the Murderer Dead. Dowagiac, Mich., July 15.—The body of Horace Peters, who shot and killed Peter Smith Thursday near Sister Lakes, 11 miles from here, was found by a searching party that tracked the murderer. Peters had shot himself with the same gun he used to shoot Smith. A feud existed between the two men several years.

Executed for Treason. Chaffee, Cape Colony, July 15.—Johannes Coetzee caught with Marais, the rebel, who was hanged July 10, at Middleburg, was publicly executed for treason in Cradock.

Melba Can't Sing This Week. London, July 15.—Miss Melba is suffering an attack of laryngitis, and her physicians have ordered her not to sing at Covent Garden this week.

Special to wire to Times-Democrat.

London, July 15.—An official Pretoria dispatch to the war department announces the arrival there of Mrs. Schubelberger, the wife of the well-known Boer commander, who was captured near Waterford a few days ago. It is believed she was conveying Boer dispatches through the British lines and is under arrest as a spy. She is the first woman spy of prominence to appear in the Boer war.

Humors

They take possession of the body, and are Lords of Misrule. They are attended by pinches, boils, the itches, scabs, salt rheum, and other cutaneous eruptions; by feelings of weakness, languor, general debility and what not. They cause more suffering than anything else.

Health, Strength, Peace and Pleasure require their expulsion, and this is positively effected, according to thousands of grateful testimonies, by

Hood's Sarsaparilla

Which radically and permanently drives them out and builds up the whole system.

EXCURSION TO SEASHORE.

Atlantic City, Cape May and Eight Other Attractive Resorts.

The annual excursions to seashore resorts via Pennsylvania lines will be run Thursday, July 25th and August 1st. Fares to ten of the most popular resorts on the Atlantic coast will be on sale at special rates on these days viz: Atlantic City, Cape May, Augusta, Asbury, Holly Beach, Ocean City, Sea Isle City, Wildwood, New Jersey, Ocean City, Maryland, and Rehoboth, Delaware.

The road trip to either of these charming summer havens will be given from Lima. The return train on all routes will be twelve days in advance date of sale.

Through trains over Pennsylvania lines take passengers to Philadelphia without changing cars from principal points on the line west of Pittsburgh. A Pullman-Panama connection is made with "steamer" cars for the various resorts. For these special excursions a saving of \$1.00 through Philadelphia to Atlantic City will be provided so that excursions may go through to the resort without stopping from the train. For particulars apply to F. M. Eddy, 11 West Second, Lima, Ohio.

POSTIVE PROOF

Social Conviction of the Greatest Skeptic in Lima.

During his residence in Lima it is often a question, perhaps a neutral one, whether

Investigation will confirm it.

Mr. J. S. McMenamin of 124 Harrison avenue says: "Last in the summer of '99 I told a representative who called upon me making inquiries about Dr. Foy's Kidney Pills that I had procured a box of W. M. McEvily's drug store; that I took a larger dose on going to bed than that prescribed; that I never opened my eyes until bright day light; that it was my first night's sleep in three months and that a continuation of the treatment cured my backache. It was now over two years since I stopped the use of Dr. Foy's Kidney Pills and I emphatically declared that during the whole of that time I had not an occasion to use either them or any other medicine for kidney trouble."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name—Doans—and take no substitute.

SPECIAL SUMMER EXCURSIONS

To Colorado, Utah, South Dakota and Minnesota.

Commencing June 18th, and every day following until Sept. 10th inclusive, agents of the Ohio Central Lines will sell special low rate summer excursion tickets to points in Colorado, Utah, South Dakota and Minnesota. Tickets good returning until October 31st, 1901.

Ask agents of Ohio Central Lines for rates and full particulars. d&w

Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure. "For years I have been greatly bothered with kidney trouble and enlarged prostate gland. I used everything known to the profession without relief until I was induced to use Foley's Kidney Cure. After using three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles. For I can honestly state I have prescribed it in hundreds of cases with perfect success."

H. F. Vortkamp, cor Main and North Streets.

ONE FARE ROUND TRIP

To Mt. Vernon, Ohio. Via Ohio Central Lines from all stations in Ohio except Baptist Assembly of Ohio. Tickets on sale July 15, 16, 18, 19 and 21, good returning until July 27.

A Poor Millionaire.

Lately starved in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him. They strengthen the stomach, aid digestion, promote assimilation, improve appetite. Price 25c. Money back if not satisfied. Sold by H. F. Vortkamp, druggist.

MRS. BARR AT HOME

CHARMING COUNTRY HOUSE OF A WELL KNOWN NOVELIST.

Cherry Croft, on the Summit of St. King Mountain, Overlooking the Hudson, Where Amelia Barr Writes Her Stories.

(Special Correspondence.)

New York, July 15.—This is the season when most of the literary folk are at their summer homes if they have any, and if not they are enjoying the cooling breezes of the seashore or the refreshing air of the mountains. About the prettiest and most comfortable of all the summer homes of authors I have ever visited is Cherry Croft, Mrs. Amelia Barr's ideal place at the top of St. King Mountain, about five miles above Cornwall-on-the-Hudson. Nature has provided no lovelier spot than that on which this widely known author has set up her household gods. Healthfulness and quietude were all she demanded when the building of a home became uppermost in her affections, and a happy combination of these two virtues, with all that is picturesque, romantic and inspiring thrown in, could not be found in all America. Up among

the clouds, where the summer winds hold high carnival, shut off from the world and its troubling voices by miles and miles of forest, looking out over a scene that fills the imagination with grandeur, and fascinates the eye with loveliness, it invites every rural charm to the last complete seclusion. In front and at one side pastoral slopes decline steeply to the river below, which at this point extends to the width of three miles, appearing from the heights like an immense lake. Beyond lies historic Newburg and further along Poughkeepsie, while on all sides rise the infolding mountains, with the peaks of the Catskills looming majestically above all. nearer, set well up from the Hudson, with its spires and turrets rising through the tree tops, is Cornwall, the erstwhile home and last resting place of Edward Payson. How welcome a sequestered road winds its way up the mountain side to Cherry Croft, so named on account of the cherry trees which abound on the premises.

The house is a long, rambling structure surrounded by a tower and porticoes, gables, with a broad, inviting vine-draped piazza extending along one side, shaded by wide spreading trees and pleasantly girted by a garden and well kept lawn. It was built on plan of Mrs. Barr's own drawing and is tastefully and handsomely furnished. The author's workshop, a room of princely proportions, is situated on the upper floor, with that animating landscape in view from every window. Though in fair weather she is more apt to be out on the big, cool piazza.

Though well advanced in years, Mrs. Barr is an indefatigable and tireless worker, yet she makes writing a pleasure more than a business. If she followed out her inclinations in the matter, there would be no cessation of work throughout the year. But she long ago learned the folly of the all work and no play method; hence, much though she would prefer to "keep it" to use her terse expression, she wisely lays the pen aside in December or January and goes either to New York city or Old Point Comfort, where she gives herself up to the pleasing task of entertaining and being entertained.

And in this Mrs. Barr excels, being the cheeriest, most agreeable of women, entering into and enjoying gaiety and mirthfulness with as keen zest as the vivacious girl, her long enjoyment in life, coupled with her superb physical vigor and tremendous capacity for work, constituting the only vanities, if such they may be called, she possesses. Yet at no time does she enjoy life so much as when breathing the bracing air of her mountain home immersed in her writings.

Among other charming summer homes of American women authors are The Homestead, Sarah Orne Jewett's place at South Berwick, Me.; The Sea Urchin, where Mrs. Burton Harrison spends the summer at Bar Harbor, Me.; Quillette, Mrs. Douglas Wiggin's delightful summer resort at Hollis, N. H., and Mrs. Elizabeth Stuart Phelps' Ward's summer cottage at East Gloucester, Mass., which years ago she named Old Maid's Paradise, but that was before it was occupied by a happy married couple. It was built by Mrs. Ward back in the seventies. Patches still. Its original site, was in those days a quiet, isolated spot, frequented only by fishermen, but under the influence of the summer visitor it was gradually transformed into a sort of suburban villa, destroying the privacy which Mrs. Ward prized so highly and compelling her to have the cottage moved farther inland. High up, where the salt air blows free and cool, overlooking the sea in front and far-reaching marshes in the rear, it now stands, with no other house to look upon it, entirely removed from the haunts of the summer cottager.

RICHARD TUPPER.

MORE ABOUT SHIRT WAISTS

Neat and Comfortable Active For Men as Well as Women.

(Special Correspondence.)

New York, July 15.—Before saying a word to women I wish to congratulate the men upon the courage they are showing in the matter of wearing a sensible and comfortable shirt waist in defiance of tradition which says that a man must wear the hottest and most uncomfortable of coats and vests in the torrid days of summer. The shirt waist for men is neat and cool looking, and no man can look neat or attractive in a heavy coat that sends the perspiration out of every pore to be a trap for the dust. Nine-tenths of the nervous irritation of men during the hot days is due to the awful sufferings of the old regime. Men gave up willingly to their adoption of the shirt waist, and now should they think it at all necessary to ask a woman to excuse them for wearing a shirt waist in their presence? Nine out of ten do this, and I think it is wrong. If they feel that it is advisable to wear a shirt waist, then they should not apologize for it. But every man should wear one and look very neat, and all the sensible women will admire them more than ever, though that is almost superfluous. The trouble is that we all admire the men too much as it is, even when the streams of suffering are peneled with no suspending hand on their faces and necks.

But, ab jolting aside, the new shirt waists for men are extremely neat and pleasant to look at. They are made of mamas and other wash material, and all that I have seen up to now are in modest and comfortable patterns. They are easily durable in the back and have convenient little pockets and are altogether the right thing in the right place at the right time. But no one should presume the shirt waist by wearing it panted with it, only a belt, and this seems to hold in some bulk way by means of straps. The shirt garment is as dressy as a woman's shirt waist, and being so cool and comfortable for the purpose, we should all concur in the men of so much good sense. And if any man feels that any woman looks abashed at his cool waist let him remember that it is another case of "the woman tempted me, and I didn't" for whom in created the style, we all know.

There is no end to the new designs in the line of sheer shirt waists, though those for every day are mostly on one general plan, but the other ones have all manner of dainty fringes in which embroidery and lace and ribbon have a part. But, whatever the style, there is always more or less tuckings. Tuckings has reached the stage of fine art, and one finds it in diagonal lines, cross lines and in chevron form besides the regular up and down fashion. Sometimes we find all the ways of setting tucks in one garment, and there are lace insertions between the rows of fine tuckings and the ribbon woven through the holes. In pale blue, yellow, pink and green this style is extremely fetching.

In the illustration one sees some of the possibilities in the way of these arrangements. One is of sheer linen lawn white as snow, and on the waist and bertha there is a vermilion pattern of pale sage green baby ribbon. This is also put on the sleeves. The gimpine part is simply tucked. Ribbon forms quite a part of the fine and sheer muslin waists, and they frequently have lace insertions between the rows of fine tuckings and the ribbon woven through the holes. In pale blue, yellow, pink and green this style is extremely fetching.

One of the most prominent test wells now under way in Ottawa county is and will be watched with great interest. The test is owned by Mr. McCrory and is located on the James farm, known on the oil map as the James Yeaman farm. The test is located on the northeast corner of the northwest quarter of section 29, Clay township between the L. S. and M. S. and the electric line, and about two miles northwest from Genoa.

"Dine" Powers shot his old gas well on his farm, at Holt's Corners, at the north edge of Genoa, but failed to make an oil producer of it. He will drill another well near the west side of his land, in case the James venture comes in an oilier.

Arrangements are being made to drill a well in the vicinity of Locust Point, in Carroll township, Ottawa county.

In Benton township, Ottawa county, the Holcomb Oil Company has secured about 2,000 acres of leases and will drill several more test wells.

This company has already expended considerable money in doing test work and should be rewarded by the opening up of a pool.

A BIG COMPANY.

A telegram from Somerset, Kentucky says:

The Consolidated Oil and Gas Company has recently been incorporated, with ex-Governor Alford and T. C. H. Vance of Lexington and Louisville, Ky., as chief incorporators. The company has a capital stock of \$5,000,000, and will operate in the Kentucky, Tennessee, Texas, California and West Virginia oil fields.

The promoters of this company have got together some of the largest oil people in the several fields.

They will have their home office in Louisville or Lexington. This is one of the largest oil companies yet incorporated in Kentucky. They have behind them men of large means, who will make the company a success.

They own several thousand acres of territory in the Kentucky and Tennessee fields and will commence work on once to develop.

Standard Buying Gas Stock.

A telegram from Anderson, Ind., says:

It is reported that two thirds of the stock of the Alexandria Gas Company, of Alexandria, Ind., has been sold to the Standard Oil Company. The price mentioned is \$93,000. Aiken & Redway, of Lima, Ohio, own the other third. As to who holds the two thirds under the reported change no official statement can be secured. The Anderson Trust Company has been receiver for the Alexandria Company.

NEW

Field for Oil Operations.

It is Active

Just Now Up in Ottawa County

And the Festive Operator is Doing Some Wildcatting With a Vengeance.

The Fake Gusher on Middle Bass Island and a Couple of Wells in Lucas County Said to Have Caused the Spurt.

The local oil district in Ottawa county is attracting the attention of the festive wildcatter at the present time. Leasers are active over nearly the entire count, from east to west. Territory is sought along the south shore of the lake.

The cause of this is hardly known, unless the great oil story of a fake gusher at Middle Bass has been the starting point, or the finding of a couple of gush wells near the bay in Oregon township, Lucas county, and the leasing of land along the bay shore.

Some years ago a test well was drilled at Gypsum about 10 years but little attention has been paid to that part of the country, in an oil way. Still this well will pump 500 bbls at least two barrels a day. The product is used for the purpose of spraying the fruit trees. Leasers are now active in that part of Ottawa county and there is no reason why they will not drill oil in small quantities.

Just across the Sandusky bay the Kuehner Brewing company found some oil in a well drilled on their property, and with a slight indication of a gusher at Port Clinton and Middle Bass, with paying wells near Oak Harbor, the chances are in favor of the field. It is worth the effort.

One of the most prominent test wells now under way in Ottawa county is and will be watched with great interest. The test is owned by Mr. McCrory and is located on the James farm, known on the oil map as the James Yeaman farm. The test is located on the northeast corner of the northwest quarter of section 29, Clay township between the L. S. and M. S. and the electric line, and about two miles northwest from Genoa.

"Dine" Powers shot his old gas well on his farm, at Holt's Corners, at the north edge of Genoa, but failed to make an oil producer of it. He will drill another well near the west side of his land, in case the James venture comes in an oilier.

Arrangements are being made to drill a well in the vicinity of Locust Point, in Carroll township, Ottawa county.

In Benton township, Ottawa county, the Holcomb Oil Company has secured about 2,000 acres of leases and will drill several more test wells.

This company has already expended considerable money in doing test work and should be rewarded by the opening up of a pool.

CRISPI BETTER.

Naples, July 15.—The condition of Signor Francesco Crispi, who last Monday suffered an apoplectic seizure which, in view of his advanced age, caused considerable anxiety, is much improved.

CARDINAL GIBBONS RETURNING.

Paris, July 15.—Cardinal Gibbons is expected to arrive in Paris shortly, but it is understood that he will proceed almost immediately and embark for the United States.

HOT WEATHER IN DENMARK.

Copenhagen, July 15.—Extreme heat continues throughout Denmark. Seven deaths due to heat were reported.

REAL ESTATE DEALER FAILS.

Toledo, July 15.—William E. Moser, a prominent real estate dealer, has assigned. The liabilities and assets are estimated at \$35,000 each.

An Argument

In favor of buying Groceries of us, is the fact that we have a line that competes with all the pure food laws—that is clean, fresh and wholesome—sold at the lowest prices—consistent with good business management and delivered promptly—this together with our well known methods of fair dealing should decide in our favor any doubts that may exist in your mind.

Come tomorrow and get a bottle of Pickles, only 10 cents, for your picnic.

NEWS

Of the City Across the River.

The Gun Club

To Hold a Special Meeting Tonight.

Will Elect a Treasurer to Succeed T. P. Jones, Who Resigned.

A Number of South Side Ladies Frightened Saturday Evening by a Bold Prowler—Other News of Interest.

Tonight there will be a meeting of the south side gun club at Banks' on south Main street, to elect a treasurer to succeed T. P. Jones, who has resigned. Several other matters of importance will be disposed of tonight.

A. H. Flint and daughters Lula and Myrtle, of Ottawa, came yesterday to be the guests of Mrs. Minerva Clark, of south Metalcraft street. Mr. Flint returned home this morning and the little girls remained for a longer visit.

A number of south Lima persons have received invitations to attend the wedding of Miss Rose Hook, a former resident of the south side, at Lakeview Wednesday of this week.

Saturday evening Job Bowsher was returning from the country to his home on south Central avenue, when a reckless bicyclist dashed headlong into his buggy sustaining a bad fall, which rendered him unable to proceed for some time. Accidents of this nature occur almost daily with various results. It is alleged bicyclists are generally responsible, paying no heed whatever to pedestrians or vehicles.

Saturday night some miscreant stationed himself at the corner of east Kirby and south Central avenue, where he frightened a number of ladies who happened to be returning home unescorted. Several women had been annoyed by the fellow's insolent advances when the members of the south side fire department had their attention called to the fellow whom they took in charge. They did obtain from him no satisfactory explanation for his conduct. He was advised to leave the locality, which he did.

Mrs. C. E. Hidenour, of Hanna, Wyo., is the guest of Mrs. J. H. Morrison, on south Elizabeth street.

Both services at the south Lima Christian church were largely attended yesterday, to hear Rev. Harris, pastor of the Christian church at Ada. He is a man of pronounced ideas, also deep conviction, possessing the faculty of comprehensively presenting great subjects in a terse convincing manner. Mr. Harris is a man of progressive ideas, which he fearlessly expresses. He is deep in thought, convincing in argument and eloquent in speech. His sermons yesterday were delivered by request, the probabilities being he will be engaged to fill the pulpit soon to be vacated by Rev. Mitchell.

James Thomas, of south Main street, spent Sunday with friends at Fryburg.

Deshler friends entertained Miss Ada Brown, of south Lima, Sunday.

Misses Alice and Florence Napier, of south Elizabeth street, have gone to the lakes, where they will enjoy a few weeks outing.

Mrs. Groves, of Columbus Grove, is visiting Mrs. J. J. Robbins, on Second street. With regret Mrs. Robbins

Cod liver oil has many more uses than the cure of consumption. It is the greatest of all revitalizing agents.

That is the reason Hagee's Cordial of Cod Liver Oil with Hypophosphite of Lime and Soda is considered so valuable by eminent physicians for convalescents, weakened women, puny children. It contains all the active principles of cod liver oil without the grease.

It can be enjoyed by the most sensitive palate and retained by the most rebellious stomach. A corrective possessing the highest nutritive value in all diseases of the stomach, blood and nerves.

Sold by all druggists. Prepared by

Kauferman Company, St. Louis, Mo.

friends will learn that she is rapidly failing, her present condition being quite alarming.

Miss Marie Salzman, of Kenton, is the guest of relatives in this city.

Last night C. M. Wood, of south Elizabeth street, returned from a visit with his parents at Columbus Grove. Mrs. Wood was unable to return owing to her serious illness of their daughter.

Yesterday evening Mrs. W. E. Debaugh, who has been visiting south Lima relatives, returned to her home at Jackson Center accompanied by Mrs. F. A. Hagerman, who will be her guest a few days.

W. G. Pugsley, of south Central avenue, is receiving a visit from Roy Moulden, of Peru, Ind.

Sunday was spent by Thomas Harter, of Como, Ind., the guest of Joseph Pierce, on Second street.

Mrs. Elmer Nolw, accompanied by her daughter, are being entertained by Mrs. Stewart Nolw, at her home on south Elizabeth street.

Yesterday William West with his wife left for a visit to the Pan-American exposition at Buffalo.

Attorney Edward Millinour, mayor of Harrod, was in south Lima a short time Saturday night.

Prof. J. C. Tussing, of Ada, in company with Mrs. Tussing, called upon a number of friends in this vicinity Saturday. They returned home Saturday night.

The friends of Mrs. F. R. Hume will be sorry to learn that she is seriously ill at her home on St. Johns avenue.

H. B. Miller, John and James Miller visited at the home of John Richardson, on east Kirby street, yesterday.

J. A. White, of Pittsburgh, Pa., is the guest of Ruben White, on south Central avenue.

This morning William Hutchinson, of Madison avenue, went to Elida for a brief visit.

Saturday Mrs. Frank Bender, of Sidney, arrived in this city to make her future home with her husband on east Kirby street.

Sarah Mell returned to her home on east Vine street yesterday after a visit with friends at Cario.

Clem Eyster, driver at the south side fire department, is taking his annual vacation.

White Man Turned Yellow.

Great consternation was felt by the friends of M. A. Hogarty, of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitter, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50c. Sold by H. F. Vortkamp, druggist.

Shot Himself.

Stony Falls, S. D., July 15.—Dexter J. Knapp, a prominent resident of the state, fatally shot himself in the head with suicidal intent.

Will Spare Kwangsu's Feelings.
Peking, July 15.—Chinese officials are making elaborate preparations to save the emperor's feelings when he re-enters Peking. All evidence of the destruction wrought by the war along the streets to be traversed by the emperor will be temporarily disguised. Great parades will be erected. The Chen Men gate, which was nearly demolished by the bombardment, will be repaired with wood and plaster, painted to resemble stone, and the damage to the walls and outer buildings will be similarly masked. Li Hung Chang has deferred the withdrawal of the foreign troops from the temple and palaces not later than Aug. 15.

Miners May Join the Strikers.
Pittsburgh, July 15.—It is claimed 50,000 miners employed in the many mines of the Pittsburgh district are willing to lay down their picks, walk out of the mines and assist the Amalgamated association of iron and steel workers in their fight against the steel trust. Patrick Dolan, district president of the United Mine workers, is authority for this statement, and if necessary the miners will immediately quit work.

Queen Overcome.
Brussels, July 15.—Queen Marie Henriette fell a victim to the extreme heat. Her majesty was playing croquet in the grounds of her villa at Spa when she was overcome and fell. She was carried in doors and soon recovered consciousness. Her majesty's physician, however, was summoned to Spa to attend her.

The Weather.
For Ohio—Fair, warmer; light west-wind.

BRIEF BUT BREEZY.
Important Dispatches Will All Extra Words Cut Out.

Jose Rawicz, United States consul at Warsaw, Polish Russia, since 1872, is dead.

Governor Allen, of Porto Rico, accompanied by his wife, sailed for New York. Will not return.

Queen Marie Henriette of Belgium overcome with heat while playing croquette. Condition not serious.

Boiler of excursion boat on Susquehanna river exploded at Sunbury, Pa., killing two and injuring several boys fishing on nearby wharf.

EVERY

Cause in the Calander is Given

By the Wife Who Wants a Divorce on the Decided Grounds of Cruelty and Neglect.

A divorce petition in which many of the state laws governing marriages are alleged to have been violated was filed Saturday. Mary E. Holzfoster is the plaintiff and John Holzfoster is defendant. The marriage occurred in this city Nov. 18, 1895, and two children, one of whom is living, were born of the union.

There is a piece of property also in dispute which consists of a small tract of land which the plaintiff says she bought with money left her by her father and her former husband. There is a mortgage in this to secure the payment of \$800 borrowed from a building and loan association to pay for a house and lot situated on the northeast corner of west Kirby street and Heindel streets. The court is asked to prevent the husband from using her property to pay off this indebtedness or from further encumbering her estate.

Mrs. Brice's Will.
The will of the late Mrs. Calvin S. Brice, which was drawn up in New York, was probated in Lima Saturday afternoon. The two daughters are given all of the personal property and the children all share equally in the division of the property. John and Kirk Brice, sons of the deceased, are named as executors without bond.

Notes.
County Commissioner Burns is in Delphos today looking after a defective bridge over Flat Creek, at Cleve-land street.

Real Estate Transfers.
John Bowers and Lillian Bowers to Samuel Bowers, 15 acres in Amanda township, \$700.

Wm. C. Scofield et al. to Buckeye Pipe Line Co., 22.71 acres in Shawnee township, \$3,900.

Thomas Fahey et al. to John Fahey, part of inlet 1125 in Robb's addition, \$1,000.

Jas. E. Osman to Mary M. Harper, inlet 402 in Jacob's addition, \$500.

DRYOUT UNBROKEN.

No Relief in Sight and Fears About Crops Being Realized.

Kansas City, July 15.—No relief came Sunday to break the almost unprecedented drought in the southwest. The day was a repetition of the past two weeks with reports from many places in western Missouri, Kansas, Indian Territory and Oklahoma of temperatures over the 100 mark.

With no relief in sight the fears for the crops that have been expressed daily are fast becoming realities and the scarcity of water and generally dry conditions make the element of fire most serious. In Kansas City the government thermometer reached 102, and at Marysville, Kas., 104 was recorded.

In the Northwest.

St. Paul, July 15.—The hot wave continues throughout Minnesota and the Dakotas. Huron reporting 102 and Sioux Falls 100. At the latter place a child went to sleep in the sun and died from the heat. New Ulm, Minn., reports a temperature of 104, with a number of prostrations. The government thermometer here went up to 98. There was a hot breeze from the south most of the day, which greatly added to the discomfort. Professor W. M. Hayes, of the state agricultural experimental farm, reports that the hot weather is doing a great deal of damage to wheat in southern Minnesota, and that chinch bugs are very numerous, and are contributing to the destruction. He believes that but a small crop will be harvested in this section.

Mississippi Crops Damaged.

Jackson, Miss., July 15.—From all over the state come reports that corn, cotton and other farm crops have been seriously damaged because of the long continued drought. Very little rain has fallen since April and none at all except in a few favored spots since June 1. Mississippi made little corn last year because of continuous rains during June and July, and to fail two years in succession is a serious matter to thousands of farmers. The weather has been extremely hot for a week.

Hope Yet for Nebraska.

Lincoln, Neb., July 15.—Nebraska again suffered from the heat, the highest temperature reported by the weather bureau being 102 degrees at 4:30 p.m. Thermometers in the business district recorded 109. Reports show that no rain has fallen in the state during the past 24 hours. Rainfall within two days will yet save the corn crop. The spring wheat and oats crops will be a failure.

German Crops Threatened.

Berlin, July 15.—The intense heat has completely dried up the country around Berlin, all moisture has been drawn from the soil to a depth of several feet.

Fruit is failing from the trees before it is ripe, and the potato and hay crops have been severely affected by the drought.

FALL

That May Yet Prove a Fatal One

To a Conductor

Occurred on the Street Railway Line.

Conductor Thomas Knocked Off of the Foot Board of an Open Car.

Head Injured and One Arm Broken and There is a Possibility That Internal Injuries Were Sustained.

Moses Thomas, a conductor employed on the city street railway lines, was badly injured in an unfortunate accident that befel him Saturday evening and it is feared that his injuries are of such serious nature that they may result fatally, although today the victim was reported as resting quietly and in a more encouraging condition than at any time since the accident occurred.

Conductor Thomas had been called for duty Saturday evening but his services were not needed after he reported and he had boarded a south bound open car on south Main street at the car barns and was on his way to his home on south Metcalf street when the accident happened. He was standing on the foot board of the open car and did not observe the approach of the closed car that was coming north at a rapid rate of speed. The first handle of the closed car struck the unfortunate man on the side of the head and hurled him up in the air almost as high as the roof of the closed car. Then as he started to descend, he was struck first by one car and then the other, alternately, until he finally landed on the pavement between the tracks, badly cut and bleeding profusely from three long scalp wounds on one side of his head. Practically unconscious, the injured man was removed in Bennett's ambulance to the city hospital, where his wounds were dressed. His left arm was badly fractured and it is feared that he sustained internal injuries.

Thomas has been employed on the street railway lines since last April. He is one of the most popular and competent conductors on the lines and has a wife and one child at his home on south Metcalf street.

HORSE

Kicked the Young Lad and Broke His Leg.

Son of Al. King Met With a Painful Injury While Returning from a Day's Outing.

The list of accidents in Lima since Saturday evening is a long one, and they were of a varying nature. Among the many was an unfortunate injury to Charlie King, the oldest son of general Al. King, the east High street barber, who had his leg broken by a kick from a horse.

Mr. King had taken his family to the country to spend the day and on the return, the horse they were driving began kicking. The horse fell around the horse's heels and while the boy was climbing over the dashboard, he received a kick which broke the bone of the right leg between the ankle and knee. The blow also cut an artery and the wound bled profusely. The injured boy was taken to the hospital in the ambulance upon his arrival in Lima and is resting easy today.

TREASURER'S

Office Open Three Evenings

This Week.

The county treasurer's office will be open Tuesday, Wednesday and Thursday nights of this week to accommodate those who wish to pay their taxes during the evening.

42

Didn't Strike, Just Quit.

Eagle Pass, Tex., July 15.—The engineers and firemen on the International railroad have resigned and business on that road is suspended. The trainmen requested an advance in wages and it was refused, which is the cause of their action. There is no concerted strike, but all the men are out. The road is a Southern Pacific property, but the men are paid in Mexican money, and this has greatly depreciated in value, cutting down their wages.

Russia Wants Recruits.

London, July 15.—Emperor Nicholas, according to a dispatch from St. Petersburg, has issued an order that 308,500 men shall be recruited for the Russian army and navy during the present year.

JackWhite Smoke
from Soft Coal

Round Oak Furnaces have large feed doors, burn wood or coal; but whatever they burn, give greater heat than any other furnaces, because all the gases and nearly all the smoke is consumed. The smoke is white from a Round Oak Furnace burning soft coal; that means no waste fuel. The principle is not new, but the application to the Round Oak is new—in that no holes are cut through the fire pot.

Round Oak
Furnaces

Are different from all others in many other things—in solid construction. In the first place there is no smoke. If you are going to buy a furnace, send for our printed book which contains much information about heating, dimensions, furnace regulation, ventilation, etc.

AN EASTERN TRIP.

On Excursion Tickets Over the Pennsylvania Lines.

Excursion tickets to New York may be obtained at principal ticket office of the Pennsylvania lines, good going and returning over the Pennsylvania lines—or going via Pennsylvania lines and returning via the other direct lines from New York, including the routes via Buffalo with privilege of stop-over at that point to take in the Pan-American Exposition and Niagara Falls, or returning via Washington, D. C., with stop-over at that point. Full information will be furnished in reply to inquiries addressed to ticket agents of the Pennsylvania lines.

July 5-11m d&w

Heartburn.

When the quantity of food taken is too large or the quality too rich, heartburn is likely to follow, and especially so if the digestion has been weakened by constipation. Eat slowly and not freely of easily digested food. Masticate the food thoroughly. Let 15 hours elapse between meals and when you feel a fullness and weight in the region of the stomach after eating, indicating that you have eaten too much, take one of Chamberlain's Stomach and Liver Tablets and the heartburn may be avoided. For sale by Wm. M. Melville, old post office corner.

July 5-11m d&w

ALASKA SQUAW MEN.

SOME GREAT FORTUNES WITH A STRING TO THEM.

Does It Profit a Man to Be a Millionaire If He Have an Indian Family on His Hands?—He is in Contempt by White Men.

[Special Correspondence.]

SKAGWAY, June 24.—The recent death of a man who acquired a great fortune in the Klondike region sets me thinking. I have just read in a paper printed in the United States a romantic story of his early history—how he was a poor country lad, loving a maiden poor as himself; how his "love of his life"—that is how the writer puts it—spurred him on to Herculean exertion in the frozen north, how he kept it up for 12 years, when success crowned his effort. He

THE SQUAW MAN'S FAMILY.

found himself a millionaire. Then he returned to the United States and wedded the maiden, who had waited for him. Then, alas, through the undermining of his constitution while working for his sweetheart, he died just after the gates of earthly bliss had opened to him. It is a pretty story, but not all the story. The rest of it is that while the man was making his fortune on the Yukon he had an Indian wife, a creature so gentle and devoted that she won the respect even of the white miners in the Klondike gold country, men whose scorn of a comrade that takes an Indian wife is unutterable. When these heard that the millionaire was on his way back to the old haunts after marrying the sweetheart of his youth, they made threats that they would deal roughly with him. He had simply gone away and left the native wife—deserted her. The threats of violence were never executed, but prophecies were freely cast upon the air that no good would come to the man. No good did come to him. He lost much of the wealth he had acquired, and then he died.

There is a whole row of rich men in the far northwest who have married wild native women, and not one I know of gets any satisfaction out of his life for all his wealth. An evil fate hangs over them all. Serves them right for marrying into an inferior race, the world says. Perhaps it does, but their punishment is heavy.

There was one among the first gold discoverers at Dawson. He lived with the Eskimos, and two brown skinned Indian brothers-in-law helped him win his wealth and shared it. He took the children to the States to be educated. I saw the whole batch of them as they were starting for San Francisco, the low browed, shrinking Indian wife trying to look like a white woman and failing miserably, the wild little half breed children dodging bather and thither, the man standing by them like a man, but looking worried and ashamed, not a chum or a friend among white men who knew him. He said he would put his children to school, then he would return to Dawson and live with his brown wife's people. "I know," he said, "that she would never be received in society in the States."

"If that fellow with the Indian wife comes in here on the trip down," said the sturdy engineer, "I'll turn the hot water on him."

There too, was that white man at the Yukon trading post who had an Eskimo wife. The wife were rich silks, but she was a drunkard and carried on wild orgies with her Indian mates. The husband's financial interests lay about the post, so that he could neither run away from his wife nor his business. There he staid, there he stays, transformed into a man of fierce temper, soured to all races and like others who have done as he did, despised by his fellow white men. I know not what it is, but there is something implanted by nature in the soul of a white person that revolts against "herding with narrow foreheads." It must be nature's safeguard for the preservation of the superior race.

There is yet another case, to my mind the most melancholy of all. At another trading post is a white man of the highest education and culture. In a fit of desperate pique against society one day he ran away to the northwest. While the fit was on he took an Eskimo wife. Perhaps he was thought to revenge himself on society, when, poor wretch, he was only revenging society on himself. He behaves himself as a gentleman; he has manners that would grace any court; he has the singing voice of an angel; he has ample means, but—he has also the Indian wife and the half breed children. He can never return to his own.

Romeo Lyon.

A Plausible Theory.
Smith—Do you believe that dogs are sometimes used in making sausages?

Brown—No, but I suspect they are an important ingredient in hash.

Smith—Why do you think that?

Brown—Because when people are fed on it a few days they begin to growl—

LIFE

Lost by a Railroad Accident.

A Stock Dealer

Run Down by Cut of Cars Saturday Night

Dies from His Injuries in the City Hospital Sunday Morning.

Victim was in Charge of a Car Load of Cattle and was Struck and Fatally Crushed in the L. E. & W. Yards.

John W. Bennett, a stock dealer whose home was at Coldwater, O., a small town on the line of the L. E. & W. R. R. in Mercer county, was run down and fatally crushed by a cut of cars in the L. E. & W. yards Saturday night death resulting from his injuries a few hours after the deplorable accident occurred.

The deceased came to this city Saturday night on the second section of east bound freight run No 122 of the L. E. & W. and was in charge of a car of twenty four cattle; he was shipping from Coldwater to Snapp & Co., at Dayton, O. The train arrived in the yards on the south side between 1 and 2 o'clock and after the engine had been cut off Bennett walked along the train to find his car of cattle and see if they needed any attention before being transferred to the C. H. & D. The yards were quite dark and Bennett failed to notice the cut of cars that a switch engine was shoving down a side track behind him. He was struck by the forward car in the cut and after being knocked down was run over by the wheels. His right leg was frightfully crushed in the cut to the knee. He left his dislocated and his head and abdomen were injured. The unfortunate man was found by some of the night switchmen and

was removed to the hospital in Bennett's ambulance. The hospital physicians did all that could be done for the victim but the hand of death was upon him and his injuries caused his death at 5 o'clock Sunday morning. He was conscious almost to the last.

The deceased was 50 years of age and was survived by his wife six daughters and a son at Coldwater. Two sons in law of the deceased came here from Coldwater yesterday and took the remains to that place over the L. E. & W. on train 3 which left here at 5 o'clock this morning.

Coroner Burton will hold his inquest of the death at 9 o'clock tomorrow morning.

ARM BROKEN.

Twelve-year-old Carl Snack Injured Last Night.

Was in the Act of Vaulting Over a Picket Fence When Foot Caught and He was Thrown.

Carl the 12 year old son of Mr and Mrs Fred Snack of west Wayne street, was the victim last evening of a very painful accident. Carl was in a playful mood and was showing his playmates how easy he could put his hands on the fence and jump over it. In jumping his foot caught between two of the palings and he fell back striking with his right arm under him, his weight and the force of the fall fracturing the bone just above the elbow. A physician was called and found the fracture to be a serious one as the bone protruded. The injury was dressed and the lad was made as comfortable as possible and it goes without saying that Carl will not again perform an athletic pranks for the amusement of his companions for some time.

One of nature's remedies, cannot harm the weakest constitution, never fails to cure summer complaints of young or old. Dr. Fowler's Extract of Wild Strawberry.

Acute indigestion disappears as if by magic and a headache departs immediately after a dose of either Dr. Fowler's Extract of Wild Strawberry or Bromo-Pepsin. For insomnia it has no equal. It is pleasant to take and absolutely harmless. All drug lists 10c 25c, and 50 cents per bottle.

LIMA

Boy the Victim of an Accident

At Montpelier.

Jack Sullivan Injured Saturday Night

When Attempting to Board a Freight Train on the L. E. & W.

Both Legs Crushed Under the Wheels and One of the Mangled Members Amputated—Is in a Hospital.

Jack Sullivan a well known Lima young man, who left here a few weeks ago to accept a position in Broderick Quintan's boiler shop at Montpelier, Ind. was the victim of a deplorable accident that befel him in that city Saturday evening as he was in the act of boarding a train to come to this city to visit his parents Mr and Mrs Michael Sullivan who reside on north Jefferson street.

The information that was received here immediately after the accident occurred stated that the unfortunate young man in attempting to board a south bound freight train on the Ft Wayne branch of the L. E. & W. railroad had missed his footing and falling under the wheels of the train had had both of his legs crushed, one above and the other below the knee and that the victim could not live. Late information however, indicates that the accident was not so serious as was at first reported. The young man was taken to St. Joseph's hospital in Ft Wayne and word was received from his father today stating that one leg had been amputated and that there was ground for the hope that the boy will recover. From this information it is believed that only one of the young man's legs was seriously crushed by the wheels of the

train. Jack was expected to spend Sunday here and it is thought that he was trying to reach Muncie on the freight train in order that he could board a train on the main line of the L. E. & W. and reach this city Sunday morning. The young man is well known and is quite popular among his friends here and all hope he will speedily recover from his injuries. His father Michael Sullivan is the flagman who has watched the north street crossing of the L. E. & W. and C. H. & D. roads for several years.

CLERKS

And Bookkeepers Donned Overalls

And Took the Places of Polishers Who Prevented an Adjustment of Cash Register Strike.

P. N. Sigler of Dayton who was the guest of relatives in Lima yesterday, states that the Dayton Cash Register troubles are almost adjusted there being still some small difficulties to overcome, but not sufficient to retard the progress of the concern. The polishers were really the ones to make an adjustment of the strike difficult, but the foreman of that department called for volunteers and even the clerks and bookkeepers whose services could be spared temporarily entered the polishing department as novices. As practice was about all that was necessary the new force rapidly developed into experts and are turning out the work almost as fast as the old employees. Then came the question as to whether the other departments all of which were controlled by union men, would receive the work turned out of the polishing rooms, by what are commonly termed as scabs. After many meetings, they decided to do so, and the factory is now running nearly its full force again. Mr. Sigler is connected with the legal department of the big concern.

Puts gray matter in your head. Brings a rosy glow to faded cheeks. Restores vim, vigor mental and physical happiness. That's what Rocky Mountain Tea will do. Ask your druggist.

Don't forget the U. B. excursion to Put-in-Bay next Wednesday. A delightful trip has been planned.
